Explore Diverse Research Fields: OIST Research Internship

OIST offers a wide range of science and tech fields for paid internships in Japan. As an applicant, you can choose from the following research areas to participate in this exciting internship program:

- Femtosecond Spectroscopy
- Computational Neuroscience
- Neural Computation
- Nonlinear and Non-equilibrium Physics Unit
- Quantum Systems
- Evolutionary Genomics
- Fluid Mechanics
- Biodiversity and Biocomplexity
- Electronic and Quantum Magnetism
- Mathematical and Theoretical Physics
- Immune Signaling
- Coordination Chemistry and Catalysis
- Membranology Unit
- Mathematics, Mechanics, and Materials
- Embodied Cognitive Science Unit
- Neural Coding and Brain Computing Unit
- Continuum Physics
- Biological Systems
- Quantum Dynamics

- Membrane Cooperativity
- Optical Neuroimaging
- Information Processing Biology
- Marine Biophysics

Don't miss the chance to be a part of this transformative experience and boost your research career. Apply for the OIST Internship 2024 in Japan and dive into the world of cutting-edge research.

What Are the Eligibility Criteria for OIST Japan Internship?

Eligible Countries: Students of any nationality are welcome to apply for the 2024 Japan OIST Internship.

Other Requirements:

- Applicants must be currently enrolled in undergraduate or Master's degree programs at universities, colleges, junior colleges, training institutes, or vocational schools, either in Japan or overseas. Recent graduates from such institutions are also eligible.
